

RAW Unlimited LLC is expanding into the federal procurement space by leveraging automation, artificial intelligence, and strategic sourcing capabilities to identify and fulfill government contract requirements. Our mission is to streamline the government's acquisition of commercial off-the-shelf (COTS) products while ensuring compliance, efficiency, and timely delivery—even for hard-to-source items.

We utilize cutting-edge AI-driven workflows—including autonomous agents for data retrieval, solicitation analysis, and supplier engagement—to uncover and deliver product solutions to contracting officers with speed and accuracy.

### ✓ Core Capabilities

- **Product sourcing and market research for federal solicitations**
- **Automated solicitation monitoring and bid preparation workflows**
- **Supplier outreach and quote aggregation**
- **Procurement documentation and compliance support**
- **Cost analysis and price justification strategies**
- **Rapid response to Total Small Business Set-Asides and urgent government needs**

### 🔍 Differentiators

- **Proprietary AI-driven procurement architecture.**
- **Autonomous agents for solicitation matching, supplier engagement, and pricing**
- **Cloud-integrated systems with real-time Google Drive and Sheets logging**
- **Hands-off document processing via workflow automation**
- **24/7 operation and scalability for high-volume sourcing**
